

Cee-Bee[®] E-1092T

Cee-Bee[®] E-1092T is an environmentally-friendly, cold tank-type remover for polyurethane and other paint systems including powder coat. Softens paint to make subsequent media blasting easier.

Conforms To

- AMS
 - 1375B
- Boeing
 - D6-17487 Rev. P
- Douglas
 - CSD-1
- Goodrich
 - CMM 32-40-24
 - CMM 32-40-43
- Goodrich & Messier
 - CMM 32-41-75
- Honeywell
 - SPM 32-49-01

Benefits

- Contains no halogenated solvents.
- Safe on aircraft structural metals, including high strength steel, mild steel, stainless steel, cadmium plated steel, aluminum and magnesium.
- Contains no phenol, heavy metals or other toxic materials.
- Surfactants biodegradable.

Properties

- Opaque, white liquid
- Slightly viscous
- Mild odor

Notes Prior to Handling

Before using your Cee-Bee[®] products, all safety and operating instructions should be read and understood. If you have any questions, please contact your Cee-Bee[®] representative before proceeding.

Use Procedure

Equipment Recommendation

- Cee-Bee[®] E-1092T may be contained in tanks fabricated of 300 series stainless steel, polypropylene or polyethylene.

Paint Removal and Softening

1. Completely immerse parts in remover. Use undiluted at ambient temperature and soak until the coating is loosened.
2. When the coating is satisfactorily loosened (1 hour to overnight), withdraw the parts and drain over the tank.
3. Remove loosened paint with high pressure, air-boosted water. Removal may be assisted by agitating the surface with stiff bristle brushes.
4. Re-immers parts in the tank to remove residual paints adhering to the surface. If residues are not removed after a suitable dwell time, an appropriate media blast procedure can be employed.

NOTE:

- Bath life can be extended by keeping the tank covered and by periodic de-sludging to remove paint residues.

Safety, Handling, and Precautions

- May irritate eyes and skin.
- Use goggles, gloves and other protective clothing sufficient to avoid contact.
- Concentrated vapors may cause irritation. Use in well ventilated area.
- For contact with eyes or skin, flush with water. If irritation persists, seek medical attention.
