

Cee-Bee® F-19

Cee-Bee® F-19 is a neutral, non-flammable, bubble fluid for detecting leaks in high and low pressure oxygen, and other gas, systems.

Conforms To

- Lockheed Martin
- Military
 - MIL-PRF-25567E
 - Type 1

Benefits

- A convenient and effective leak detecting method.
- Leak areas easily located.
- Compatible with oxygen.
- Safe on most metals, including aluminum, steel and copper.
- Safe on good quality paint and most plastics.
- Surfactants biodegradable.

Properties

- Water-white to amber liquid
- Biodegradable

Notes Prior to Handling

Before using your Cee-Bee® products, all safety and operating instructions should be read and understood. If you have any questions, please contact your Cee-Bee® representative before proceeding.

Use Procedure

1. Apply a thin layer of bubble fluid by brush or from tip of plastic squeeze bottle to all fittings, connections and check valves. Leaks can be readily located by the formation of bubbles where the oxygen is escaping.
2. After inspection is complete, all bubble fluid must be completely removed from the surface. Thoroughly wipe surface with clean, damp cloths or rinse off with water.

Safety, Handling, and Precautions

- Avoid eye contact and prolonged skin contact. May cause irritation.
- Do not take internally.
- In case of accidental contact with eyes, flood with water. If irritation persists, seek medical attention.
