- Safe on all aircraft structural metals, including high strength steel, cadmium plated steel, mild steel, aluminum, and magnesium.
- Surfactants are biodegradable.

Properties

- Yellow to Dark Brown Liquid
- Thin Liquid
- Mild Solvent Odor

Notes Prior to Handling

Before using your Cee-Bee[®] products, all safety and operating instructions should be read and understood. If you have any questions, please contact your Cee-Bee[®] representative before proceeding.

Use Procedure

Cee-Bee[®] E-2013T may be contained in tanks fabricated of 300 series stainless steel, polyurethane or polyethylene. Use full strength at 140-160°F (60-70°C)

1. Immerse parts completely into lower layer and soak until the coating has been penetrated and loosened.
2. When the coating is satisfactory loosened, withdraw the parts and drain over the tank.
3. Remove loosened paint with high pressure, air-boosted water. **Do not rinse over the process tank.** Removal may be assisted by agitating the surface with stiff bristle brushes.
4. Reimmerse parts in the tank to remove residual paints adhering to the surface, if residues are not removed after a suitable dwell time, an appropriate media blast procedure can be employed.

NOTE:

- Bath life can be extended by keeping the tank covered and by periodic desludging to remove paint residues.

Solution Control

- Maintain 6"-8" Oil Seal. Adjust if necessary with Cee-Bee[®] Additive O.

Safety, Handling, and Precautions

- May irritate eyes and skin.
- Use goggles, gloves, and other protective clothing sufficient to avoid contact.
- Concentrated vapors may cause irritation. Use in well ventilated area.
- For contact with eyes or skin, flush with water. If irritation persists, seek medical attention.
