

Astromat Orange DF (Astro ODF)

Astromat Orange DF is a viscous, non-petroleum, solvent-based cleaner to be used on painted and unpainted surfaces. Astromat Orange DF is designed for use as received for routine cleaning or degreasing of reciprocating-type engines prior to maintain/repair, and for large structures or difficult-to-reach areas on aircraft, such as wheel wells and flaps, where the increased contact time may be substituted for scrubbing. It is also excellent for use as a cleaner for lavatory holding tanks and for deep soak.

Product Data Sheet

Use Procedure

Astromat Orange DF is designed for use as received, for large equipment or difficult-to-reach areas, where the increased contact time may be substituted for scrubbing. A one-to-one dilution with water has been found to be effective for greasy areas, such as wheel wells.

Apply Astromat Orange DF undiluted with mop, brush, or spray. Allow to remain on surface for up to 30 minutes depending on temperature; agitate the surface with a brush, and rinse with a pressure stream of water. Dilution with 4 parts water is recommended for routine use. A solution of 1 part in 9 parts water may be used for light-duty cleaning.
